DATASHEET

Pliers for steel cable ties - griptool CTT ST7.9

Item no. 4040064

The griptool CTT ST7.9 pliers for steel cable ties from TOOLOVA® are ideal for the professional tightening and cutting of steel cable ties up to 7.9 mm wide and up to 0.3 mm thick. With their robust aluminum alloy and adjustable tying force, they deliver precise results every time. The tool automatically cuts off the protruding part of the steel cable tie as soon as the desired tying force is reached. The compact design and low weight make the tool easy to handle, even during prolonged use.
