

Corrugated pipe cutter for corrugated plastic pipes up to 45 mm (cross and longitudinal cut)

The corrugated pipe cutter from EMC-direct has been specially developed for the precise cutting of corrugated plastic pipes up to 45 mm. The robust magnesium housing ensures high stability combined with low weight. Thanks to the integrated cross and longitudinal cutting function, corrugated pipes can be opened in a controlled, clean and safe manner. The precise guide system keeps the cutting position exactly in place.

Technical data:

Material:	Magnesium housing AZ91D
Application:	Plastic pipes
Features:	Four-edged blade (90° adjustable), single blade for longitudinal cut
Cutting range:	For pipes up to 45 mm
Length:	180 mm
Weight:	555 g
