

TF Plus Solar crimping tool set

The TF Plus Solar package from TOOLOVA® offers everything you need for professional crimping in solar technology. With three interchangeable crimping dies specially designed for MC3 and MC4 solar plug contacts and insulated cable lugs, this set is ideal for the solar technology professional. The ergonomic 2-component handle of the pliers ensures comfortable handling and the matt chrome-plated frame guarantees long-term corrosion protection.

Product highlights:

- The set contains: 1
 - Crimptool TF PLUS (with quick lock)
 - 1 transport holder
 - 3 suitable inserts for solar connectors (see table for details)
- Preset, optimum holding force
- Precise workmanship in industrial quality with long-term guarantee (tested to 50,000 crimps)
- Safe and comfortable handling thanks to ergonomic 2-component handles
